

Roll No.

41480

**B. Pharmacy 4th Semester
(Regular/Re-appear/Improvement)
Examination – May-2024**

PHARMACOGNOSY AND PHOTOCHEMISTRY-I

Paper : BP405T

Time : Three hours]

[Maximum Marks : 75

Before answering the questions, candidates should ensure that they have been supplied the correct and complete question paper. No complaint in this regard, will be entertained after examination.

Note : Section-A is *compulsory*. Attempt any *seven* questions from Section-B, each carry 5 marks and *two* questions from Section-C, each carry 10 marks.

SECTION – A

2 × 10 = 20

1. Explain the following :

- (a) Describe Keller Kiliani test ?
- (b) What are hallucinogens ?
- (c) Define stomatal index and palisade ratio.
- (d) Name four chemical tests for alkaloids.

P. T. O.

41480

- Ph anti biotic solidifying agent*
- Refers to Bactericidal agent*
- (e) Write uses and source of pepsin.
 - (f) Give biological source of agar.
 - (g) Define explant with examples.
 - (h) What are Edible vaccines ?
 - (i) Define polyploidy .
 - (j) Give biological source and uses of Bee wax.

SECTION - B

5 × 7 = 35

- 2. Discuss morphological classifications with merits and demerits.
- 3. Describe organoleptic evaluation of crude drugs.
- 4. What is adulteration? Give details about various types of adulterants.
- 5. Discuss Homeopathy system of medicine in details.
- 6. Discuss various factors influencing cultivation of medicinal plants.
- 7. Explain mutation with reference to medicinal plants.
- 8. Write Nutritional requirements for plant tissue culture.
- 9. Write a brief note on natural fibres.
- 10. Write applications of plant tissue culture in pharmacognosy.

SECTION - C

 $10 \times 2 = 20$

11. Write an introduction, classification and isolation methods of alkaloids.
12. Describe various novel medicinal agents from marine sources in detail.
13. Give biological source, chemical constituents and uses of the following crude drugs :
 - (i) Papain
 - (ii) Wool Fat
 - (iii) Acacia
 - (iv) Chaulmoogra oil

B.Pharma 4 Semester, 1st Sessional Examination, 2024

Paper Code -BP405T; Pharmacognosy Nd Phytochemistry(Theory)

Duration: 1 hr 30 minutes

Total marks: 30

Question no.1 is compulsory

- a. Define Edible Vaccine with example? 2x5=10 marks
b. Define Pharmacognosy and Write two scope of Pharmacognosy?
c. What is lycopodium spore method?
d. What is Totipotency? Write chemicals name used in glassware for sterilization?
e. What is PTC? Two application used in PTC?

2 Attempt any one questions from the rest

10x1=10 marks

- a. What is Pharmacognosy? Sources of drug- Plant, Animal, Marine, nd Tissue culture?
b. What is Plant tissue culture? what are the application of plant tissue culture? what is flower culture?

3 Attempt any two questions from the rest

5x2=10 marks

- a. What are the nutritional required in plant tissue culture?
b. What are organized and unorganized drugs? Define Crude drug, and adulatration?
c. What is Evaualtion? Methods of evaluations

B.Pharma 4 Semester, 2nd Sessional Examination, 2024
Paper Code- BP405T Pharmacognosy Nd Phytochemistry(Theory)
Duration: 1 hr 30 minutes
Question no.1 is compulsory
Total marks: 30

2x5=10 marks

- a. Define Mutation with example?
- b. Define allopathy with example?
- c. Define Alkaloids with example?
- d. Define Carbohydrate and Enzyme?
- e. Write identification test for protein?

2 Attempt any one questions from the rest

10x1=10 marks

- a. Define various Indian Traditional medicine of system?
 - b. What is Cultivation? And factors influencing cultivation of medicinal plants and application?
- Define Hybridization

3 Attempt any two questions from the rest

5x2=10 marks

- a. Define Glycosides classification, Properties and test of glycosides ?
- b. Define Biological source , chemical nature , uses of cotton and jute?
- c. What is plant hormone? Define Biological source , chemical nature , uses of papain?
